

ATTA ULLAH

QMS & QUALITY PROFESSIONAL | IQC | INTERNAL AUDIT | DATA ANALYTICS

Karachi, Sindh, Pakistan | attaulahkhokhar23@gmail.com | linkedin.com/in/atta-ullah-k

PROFESSIONAL SUMMARY

QMS and Quality professional with 4+ years of experience in electronics manufacturing, Quality control, Internal auditing, document management, reporting, and process improvement. Experienced in QMS compliance, IQC operations, incoming material inspection, nc/capa follow-up, cross-functional coordination, and advanced excel and Power Bi reporting. Built 30+ excel dashboards and 20+ power bi dashboards, including a DPPM dashboard for an international UPWORK client.

PROFESSIONAL EXPERIENCE

Tecno Pack Electronics (Pvt). Ltd. | Karachi, Pakistan | Aug 2021 - Present

QMS & IQC / assistant iqe responsibilities

- Manage QMS documentation, document masterlists, controlled forms, revisions, archiving, retrieval, and compliance across departments.
- Conduct quarterly internal audits across 17 departments; prepare reports, identify observations, nonconformities and gaps, and track NC/CAPA actions through closure.
- Manage 100+ controlled forms and coordinate QMS requirements with HR, admin, warehouse, QA/QC, IT, production and other departments.
- Supervise IQC inspection activities, train IQC workers, assign daily inspection/reporting work, and support incoming material quality control using AQL-based and other shipment escalation methods.
- Inspect raw materials and components including PCBA, LCD, covers, gift boxes, cartons, speakers and lenses; support rejection, return-material and line-support processes.
- Develop advanced excel reports using XLOOKUP, index/match, unique, filter, SUMIFS, nested ifs, pivot tables, timelines, slicers and power pivot.
- Built 30+ excel dashboards and 20+ power bi dashboards covering incoming defects, man-made defects, DPPM, defect ratios, model comparisons and top defect categories.
- Automated supplier rejection and quality reporting using IQC/PMC data reconciliation and refreshable excel reporting, reducing repetitive manual reporting effort.
-

CAREER PROGRESSION

Quality worker → QA/data entry → QMS → IQC → QMS & IQC. Progressed from phone functionality and inspection to data reporting, QMS documentation and audits, followed by IQC inspection management and team supervision. Current focus is primarily QMS while continuing IQC oversight.
